# OpenGov ERP Cloud

Collaborative Budgeting | Robust Financial Management | Intuitive Citizen Services

The Only Modern Cloud ERP for Local Government

Future-proof your government's most important software investment by choosing the only modern cloud ERP designed to unify and automate the many mission-critical processes of local government.

Many core processes. One integrated solution.

Built with a data-first mindset, the OpenGov ERP Cloud combines powerful public-administration software suites with the industry-leading Reporting & Transparency Platform to drive faster, more effective decisions, and understand the public response.

Budgeting & Planning

Enable maximum effectiveness for your entire budget and planning cycle, from near-term forecast adjustments to long-range capital initiatives.

Financials

Streamline Fund Accounting, procure and pay, account for assets, automate Payroll and manage billing for utilities and other services - all without paper, Excel, errors, and pain.

Citizen Services

Accelerate community development with a user-friendly public application portal seamlessly integrated with back-end automation capabilities for a variety of workflows.

Reporting & Transparency

Centralize and automate reporting for all of your constituents while strengthening public trust with a unified platform for communication.

80%
OpenGov customers achieve an average of 80% time savings on reporting

2x
Governments using OpenGov's Budgeting & Planning solutions double their efficiency in time spent creating the budget

75%
OpenGov customers improve average permit processing times by up to 75%

A platform and partner you can trust.

Subject Matter Experts Who Share Your Passion

Passionate, committed staff with over 300 years of collective government experience make it easy to get the support you need and help ensure success before, during, and after implementation.

Seamless Transparency and Public Engagement

Leverage the leading transparency platform to communicate initiatives clearly and effortlessly, run public budget simulations, publish interactive budget books online, and deliver up-to-date financial and operational data with context.

Trusted Technology to Protect Your Continuity and Reputation

Look to the modern cloud technology trusted by over 1,000 governments like yours to improve continuity, provide anywhere access, and bring value faster than traditional ERPs.

Collaborative Budgeting and Reporting for Unprecedented Alignment

Liberate your budgeting from disparate spreadsheets, unify your reporting and analysis with interactive dashboards, and track operational performance with a single source of truth to keep offices and departments on the same page.

About OpenGov

OpenGov is the leader in modern cloud ERP software for our nation's cities, counties, and state agencies. On a mission to power more effective and accountable government, OpenGov serves more than 1,000 agencies across the U.S. Built exclusively for the unique budgeting, financial management, and citizen services needs of the public sector, the OpenGov ERP Cloud enables organizations to plan more strategically and collaboratively, streamline mission-critical processes, and communicate with stakeholders more transparently.

"We view OpenGov as a strategic partner. They've taken the time to listen to what we wanted and built a true partnership with us."
